Ideation Phase

Problem Definition

Date	28 JUNE 2025
Team ID	LTVIP2025TMID59766
Project Name	TrafficTelligence: Advanced Traffic Volume Estimation with Machine Learning
Maximum Marks	2 Marks

Problem Definition

To address these challenges, Machine Learning (ML) and Deep learning (DL) techniques are employed in road traffic prediction, allowing for the handling of both historical and actual time information. This integration enhances the accuracy of traffic forecasts by studying both historical data and real-time trends.
